NUMB. 5022

THURSDAY, MAY 23, 1745.

Breslau, May 19.

THE French Minister, M. de Valori, arrived here on the 15th from Berlin, and immediately continued his Journey to the Royal Camp, in the Neighbourhood of Neiss, in order to execute a Commission of great Importance, from the King his Master; but those who do not pin their Faith

French Sleeves, think the true Reason of his coming to gain the best Intelligence he could, as to a Treaty that has been for some Time talked of; and which we know no other Foundation, than the Injury of the Troops on both Sides; and that seems, in more than to any pacific Disposition on either. We still continue our Skirmishes with the Insurgents, which has the good Effect, that it teaches our and saw Troops the Practice and Discipline of

May 20. There passed by here Yesterday, on flat bottomed Boats, 15 Pieces of fine Cannon, which the Austrians took from the French in the Neighbourhood of Gunzburg, in Swabia, when they fled precipitately out of Bavaria; though they had now persuaded the World that they had made a Retreat. This Morning we have received Advice, the Stomachs of the Hessians are come down; and they have declared, at all Events, they will never serve against the Queen of Hungary; which have removed all Obstacles to the Motion of Field Marshal Trautman's Army, it begins to march as this Day in Columns. The first will proceed from Neubourg, on the 24th they will arrive at Oberndorf; on the 25th at Dirmingen, on the 27th at Scherzberg, on the 28th at Scherzberg, and on the 29th in the Neighbourhood of Merghentheim, in Franconia, where the Army will re-assemble, in order to march directly to Frankfort.

May 21. The Troops which the French had sent here are marched out, and, it is said, will be replaced by a Regiment of Dragoons. Yesterday four barges, laden with Hay and Oats, fell down the River, but they have since remounted the River, they intended to go to Spire, in order to unload the Goods and Provisions which they took in here; and are from thence not a little apprehensive, that they intend to return into these Quarters. They have left at Spire the greatest Magazine that was ever known in these Parts. The French Troops that are in the Neighbourhood of Heidelberg are now going to Ladenbourg, and are fortifying the Bridge there over the Neckar. Some People here say that they have certain Intelligence, the Prince of Saxe received Orders to detach as many Troops as he could to join Mr. de Segur, and to march the next Day into the Low Countries; which, however, some Officers of Distinction, that were come to recover their Health, are set out all of a sudden, which looks as if an Action would be shortly. One Thing is certain, that, before the end of these Difficulties will be cleared up.

May 22. We know not what to think of the Things are in at Tournay, because the Reports we have received from thence differ extremely, and they have done ever since the French broke before the Place. All that we know with certainty, that, notwithstanding the Reports of the French, the Garrison actually consisted at first of 10,000 Men. The Citadel is a stronger Place than the Town, and is always held out for a greater Space of Time; and are told that the French insist upon a Capitulation, and that they refuse to admit the Garrison into the Town to any other. The Camp of the French continues where it did, and the Army receives Day fresh Reinforcements. The Prince of Waldeck caused several Officers, belonging to the Corps of the Duke of Saxe, to be arrested, on account of their not doing their Duty so well as was expected from them. The Engagement of the 11th. This he is said to have in Obedience to an express Order from the States General, directing his Highness to reward every Man's Duty, to the utmost, and to punish such as failed in Duty, after a strict Enquiry, according to the Rigour of the Laws.

May 27. There are so many Stories fly about the Arrival of the Two Officers from Tournay,

that it is not easy to distinguish which of them is worth sending: Some will have it, that the Pockets of certain Engineers have been filled with Pistoles, and attribute to this the blowing up of our Magazine; others conjecture, that if there be any thing in this Surmise, the Magazine was blown up to give some Colour to a Capitulation, which they would have us believe these Officers brought with them for the Approbation of the States. But these are the Whispers only of the Discontented; neither is there the least Certainty, that any such Capitulation was brought; on the contrary, it is believed, that the Governor entered into some Kind of Treaty, in order to gain Time; and we flatter ourselves, that by the next Post, we shall learn that he has put the Place into a Condition of making a vigorous Defence. At least, this is what we wish to hear, for the Spirits of the People are in great Fermentation; and it is thought, that if a good Defence be not made, all the Officers concerned in giving up the Place, will be subjected to a very severe Enquiry.

## COUNTRY NEWS.

Newcastle, May 18. His Majesty's Ship the Faulkon, the Hon. John Birmingham, of 6 nine Pounders, 12 six Pounders, and about 70 Men, fell in last Tuesday, off Flamboroughhead, with a French Privateer of 18 nine Pounders, 6 six Pounders, and about 200 Men: The Faulkon fought her several Glisses, but Night coming on, they both lay to, and in the Morning renewed the Engagement, when the Privateer, having lost a great many Men, thought proper to sheer off. The Fox Man of War, of 20 Guns, soon after falling in with the Faulkon, and being informed of what had happened, immediately gave Chase to the Privateer, who had not got out of Sight; so that we expect shortly to hear a good Account of her. The Faulkon would have chased the Privateer, but that her Mainmast was shot through by a nine Pounder, and the Captain having his Leg shot off above the Knee with another nine Pounder, and one Man losing his Arm, they durst not proceed, lest they should carry away their Maimed. None of his Crew (who all behaved well) were killed, and only two wounded.

## LONDON.

According to private Letters from Frankfort, the Austrian Army, under the Command of Field-Marshal Count Traun, making very long Marches towards that City, the French have, on a sudden, abandon'd all their Posts on the Mayn, except Hochst; and that they are likewise preparing to quit that as soon as they can withdraw their Artillery and Baggage.

We learn from Leipzick, that the Duke de Saxe Weissenfels set out on the 21st for the Army; and that the new Convention, between the Courts of Dresden and Vienna, has been ratified and exchanged; by which his Polish Majesty is said to have engaged his Vote for the

Grand Duke of Tuscany at the ensuing Election, and has guaranteed the Treaty between her Hungarian Majesty and the Elector of Bavaria.

All the Engineers, together with the Artillery and Ammunition that has been left at Namure, received Orders, the 24th of May, to join the Army of the Allies, from whence it is conjectured, that we shall speedily hear of their undertaking some Enterprize of Importance; the rather, because all the Officers that were at Brussels, have been commanded to join their respective Corps immediately.

The Sunderland, ———, from Lancaster for Barbados, was taken the 18th of April by a French Privateer belonging to Desip, of 12 Carriage Guns, 16 Swivels, and 114 Men, call'd the Reynard, Capt. Anthony Frigoly; who next Day took the Vernon, Brown, from Glasgow to Virginia; and the Day after that, took the James, Hyth, from Liverpool, who ransom'd his Ship, and came Hostage himself. The two First, with the Privateer, arrived at Brest the 27th of April, O. S.

The ——— Louis, a French Privateer of 14 Carriage Guns, Three Pounders, 16 Swivels, and 149 Men (the same that engaged the Falcon Sloop of War the 16th Instant) is taken by his Majesty's Ships the Dover, Captain Collins, and the Gibraltar, Capt. Beaver, and brought into Yarmouth.

The Phenix and Trial Privateers have taken, and carried into Kinsale, two French Ships from Bourdeaux for Martinico.

The Love of Bliddeford, Webber, for Newfoundland, was taken 60 Leagues to the Westward of Cape Clare, by a Spanish Privateer of great Force, and retaken three Days after by the Old Noll and Tygris Privateers, who sent her into Plymouth, and are gone in Pursuit of the Spanish Privateer.

Yesterday Morning died, after a few Days Illness, at his House at the Parliament Stairs, Westminster, Mr. Dixon, an eminent Coal Merchant.

The same Day the Election ended at Westminster School (which lasted four Days) when the Eight Senior Scholars were declared; viz. Four for Oxford, and Four for Cambridge.

At the same Time Eleven of the Scholars belonging to the said School were admitted on the Foundation, as King's Scholars. After which, a grand Entertainment was given to the Doctors that came from each University, according to Custom.

On Tuesday in the Afternoon a Fire broke out at a Chocolate Makers in St. Martin's Lane, but by timely Assistance it was soon extinguish'd.

Yesterday the Court of Directors of the India Company chose Mr. William May, and Mr. John Swinfin, to be Supercargos of the Onflow, Capt. Congreve, Outward bound for the East Indies.

The same Day died Mrs. Mary Ogier, Sister to Mr. Ogier, an eminent Merchant in Spital Square.

**W**hereas by an Act passed in the last Session of Parliament, entitled (amongst other Things) An Act for giving further Time for the Payment of the Duties omitted to be paid for the Indentures or Contracts of Clerks and Apprentices; and for the further enforcing the Payment of the said Duties: It is enacted, That on Payment of the said Duties (which have been so omitted to be paid) on or before the First Day of August next; and upon tending to be stamp'd such Indentures and Contracts at the same Time, or at any Time before the 29th of September next, that the said Indentures and Contracts shall be good, and the Clerks, Apprentices, or Servants, shall be capable of exercising their Trades or Employments as fully, as if the said Duties had been paid within the Times limited by Two several Acts of Parliament of the 8th and 9th Years of Queen Anne.

**Concerning Gleet and Seminal Weakness of all Kinds.**

**ALL judicious Physicians and Surgeons**  
 allow, that nothing is more difficult to cure than Stubborn Gleet and Seminal Weakness, which is often attended by too severe purging for Venereal Issues, violent Strains, Pollution sui, or any other Cause whatever; that they are dangerous in their Consequences, as well difficult to cure, as is certain, since they destroy the Generative Faculties, infect the whole Nervous System, often bring on Hectick Fevers, a Tabes Dorsalis, or Corruption of the Back, or an Atrophy or Nervous Consumption which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleet, Seminal Effusions, nocturnal Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Disturbance of the Urine, or Difficulty of holding their Urine, would doubtless be glad to meet with a certain, speedy Cure, which they most assuredly may, by the only a small Quantity of a transcendent Balsamic-TRACTIVE ELECTUARY, now published for a general Use after having for many Years been experienced never fail perfectly curing the most Stubborn Gleet, in a few Days, without Difficulty or Trouble; as all other Weaknesses of the Back, Reins, Seminal Vesicles, Urinary Passages, which almost instantly cure, and to rights and restoring all those Parts and Passages to natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent **BALSAMIC-TRACTIVE ELECTUARY** is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weaknesses of Constitution of any Kind, and particularly in the Back, Reins, Seminal and Urinary Vesicles to an immense degree, inasmuch that in any Debility of them, one Dose does more than ten of any other Remedy yet found; and all Persons fatigued with Gleet or Seminal Weakness, or Sort, or Weaknesses of the Urinary Vesicles, who take it in three Days time find it so very effectual, that they are most agreeably surprised at it.

When a Medicine will infallibly accomplish such a speedy and perfect Cure of such difficult Maladies, as Gleet and Seminal Weaknesses are, as this Great Remedy truly directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in its praise. All who ever took it for any of the above-mentioned Disorders have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Cure one Pot alone being sufficient in most Cases to remove a Cure, worth ten times as much, and by the special Appointment, is to be had only at Mr. Hauksbee's Toy-shop, at the Rose and Crown against St. Dunstons Church-yard in the Strand, ready sealed up, with Instructions, which whosoever carefully reads will fully know, when the Gleet or Weakness is so effectually succeeded a Venereal Injury, whether all the Malady the Foul Disease is entirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamic-TRACTIVE
